FOREWORD

NHS Southport and Formby Clinical Commissioning Group (CCG) consists of local primary care practices and is responsible for commissioning a significant amount of health care for the residents of Southport and Formby.

Our aim is to create an environment where everyone who needs health care can be assured that they will have the best possible local services and the information to make the choices that are right for them.

For us, treating illness and disability is only part of what we will achieve. Of equal importance is creating communities where health and wellbeing is the norm and that residents live their lives to their full potential.

We will achieve this by effective working with those that use the services, our residents and those that provide them such as local authorities, primary care providers, Acute and Community care services, Mental Health services and our great range of volunteer services available.

General Practice is at the heart of our community and is central to the changes that need to occur to deliver our aims. It is therefore vital that clinical commissioning is developed and delivered through its constituent membership.

This document lays out how we will achieve this and our responsibilities to our stakeholders.

Dr Rob Caudwell
Chair
NHS Southport and Formby CCG

1. INTRODUCTION AND COMMENCEMENT

1.1. Name

1.1.1. The name of this clinical commissioning group is NHS Southport and Formby Clinical Commissioning Group. (NHS SFCCG)

1.2. Statutory Framework

1.2.1. Clinical commissioning groups are established under the Health and Social Care Act 2012 (“the 2012 Act”). They are statutory bodies which have the function of commissioning services for the purposes of the health service in England and are treated as NHS bodies for the purposes of the National Health Service Act 2006 (“the 2006 Act”). The duties of clinical commissioning groups to commission certain health services are set out in section 3 of the 2006 Act, as amended by section 13 of the 2012 Act, and the regulations made under that provision.¹

1.2.2. NHS Commissioning Board (all future references in this document refer to NHS England, the Operational name for the NHS Commissioning Board) is responsible for determining applications from prospective groups to be established as clinical commissioning groups and undertakes an annual assessment of each established group. It has powers to intervene in a clinical commissioning group where it is satisfied that a group is failing or has failed to discharge any of its functions or that there is a significant risk that it will fail to do so.

1.2.3. Clinical commissioning groups are clinically led membership organisations made up of general practices. The members of the clinical commissioning group are responsible for determining the governing arrangements for their organisations, which they are required to set out in a constitution.

1.3. Status of this Constitution

1.3.1. This constitution is made between the members of NHS Southport and Formby Clinical Commissioning Group and has effect from 1st April 2013, when NHS England established the group. The constitution is:

- a) published on the group’s website at www.southportformbyccg.org.uk
- b) or available in hard copy by writing to Melanie Wright at NHS SFCCG, 5 Curzon Rd, Southport, PR8 6PL

1.4. Amendment and Variation of this Constitution

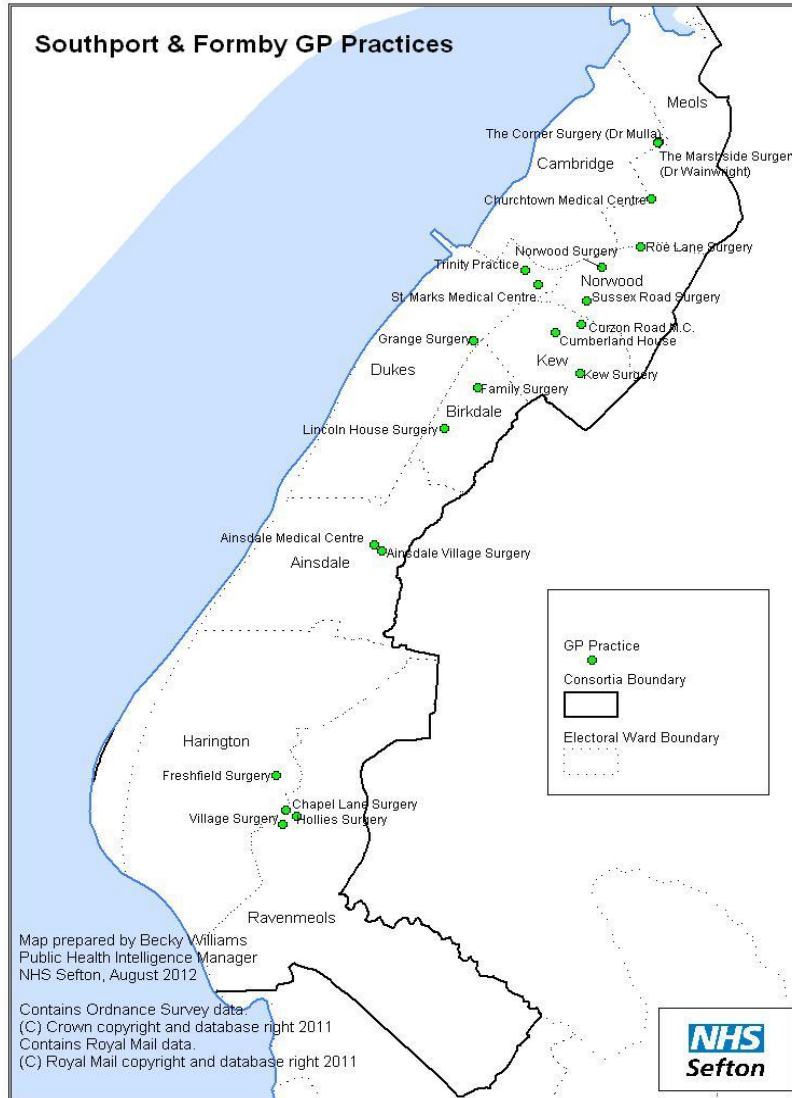

1.4.1. This constitution can only be varied in two circumstances.

- a) where the group applies to NHS England and that application is granted;
- b) where in the circumstances set out in legislation NHS England varies the group’s constitution other than on application by the group.

¹ Duties of clinical commissioning groups to commission certain health services are set out in section 3 of the 2006 Act, as amended by section 13 of the 2012 Act

APPENDIX E – PRIME FINANCIAL POLICIES

1. INTRODUCTION

1.1. General

- 1.1.1. These prime financial policies and supporting detailed financial policies shall have effect as if incorporated into the group's constitution.
- 1.1.2. The prime financial policies are part of the group's control environment for managing the organisation's financial affairs. They contribute to good corporate governance, internal control and managing risks. They enable sound administration; lessen the risk of irregularities and support commissioning and delivery of effective, efficient and economical services. They also help the Chief Officer and Chief Finance Officer to effectively perform their responsibilities. They should be used in conjunction with the scheme of reservation and delegation found at Schedule 15.
- 1.1.3. In support of these prime financial policies, the group has prepared more detailed policies, approved by the Chief Finance Officer, known as detailed financial policies. The group refers to these prime and detailed financial policies together as the clinical commissioning group's financial policies.
- 1.1.4. These prime financial policies identify the financial responsibilities which apply to everyone working for the group and its constituent organisations. They do not provide detailed procedural advice and should be read in conjunction with the detailed financial policies. The Chief Finance Officer is responsible for approving all detailed financial policies.
- 1.1.5. A list of the group's detailed financial policies will be published and maintained on the group's website at www.southportformbyccg.org.uk.
- 1.1.6. Should any difficulties arise regarding the interpretation or application of any of the prime financial policies then the advice of the Chief Finance Officer must be sought before acting. The user of these prime financial policies should also be familiar with and comply with the provisions of the group's constitution, standing orders and scheme of reservation and delegation.
- 1.1.7. Failure to comply with prime financial policies and standing orders can in certain circumstances be regarded as a disciplinary matter that could result in dismissal.

1.2. Overriding Prime Financial Policies

- 1.2.1. If for any reason these prime financial policies are not complied with, full details of the non-compliance and any justification for non-compliance and the circumstances around the non-compliance shall be reported to the next formal meeting of the Governing Body's audit committee for referring action or ratification. All of the group's members and employees have a duty to disclose any non-compliance with these prime financial policies to the Chief Finance Officer as soon as possible.

1.3. Responsibilities and delegation

- 1.3.1. The roles and responsibilities of group's members, employees, members of the Governing Body, members of the Governing Body's committees and sub-committees, members of the group's committee and sub-committee (if any) and persons working on behalf of the group are set out in chapters 6 and 7 of this constitution.
- 1.3.2. The financial decisions delegated by members of the group are set out in the group's scheme of reservation and delegation (see Schedule 14).

1.4. Contractors and their employees

- 1.4.1. Any contractor or employee of a contractor who is empowered by the group to commit the group to expenditure or who is authorised to obtain income shall be covered by these instructions. It is the responsibility of the Chief Officer to ensure that such persons are made aware of this.

1.5. Amendment of Prime Financial Policies

- 1.5.1. To ensure that these prime financial policies remain up-to-date and relevant, the Chief Finance Officer will review them at least annually. Following consultation with the Chief Officer and scrutiny by the Governing Body's audit committee, the Chief Finance Officer will recommend amendments, as fitting, to the Governing Body for approval. As these prime financial policies are an integral part of the group's constitution, any amendment will not come into force until the group applies to NHS England and that application is granted.

2. INTERNAL CONTROL

POLICY – the group will put in place a suitable control environment and effective internal controls that provide reasonable assurance of effective and efficient operations, financial stewardship, probity and compliance with laws and policies

- 2.1. The Governing Body is required to establish an Audit Committee with terms of reference agreed by the Governing Body (see Schedule 9).
- 2.2. The Chief Officer has overall responsibility for the group's systems of internal control.
- 2.3. The Chief Finance Officer will ensure that:
 - a) prime financial policies are considered for review and updated when appropriate annually;

- a) **Selflessness** – Holders of public office should act solely in terms of the public interest. They should not do so in order to gain financial or other benefits for themselves, their family or their friends.
- b) **Integrity** – Holders of public office should not place themselves under any financial or other obligation to outside individuals or organisations that might seek to influence them in the performance of their official duties.
- c) **Objectivity** – In carrying out public business, including making public appointments, awarding contracts, or recommending individuals for rewards and benefits, holders of public office should make choices on merit.
- d) **Accountability** – Holders of public office are accountable for their decisions and actions to the public and must submit themselves to whatever scrutiny is appropriate to their office.
- e) **Openness** – Holders of public office should be as open as possible about all the decisions and actions they take. They should give reasons for their decisions and restrict information only when the wider public interest clearly demands.
- f) **Honesty** – Holders of public office have a duty to declare any private interests relating to their public duties and to take steps to resolve any conflicts arising in a way that protects the public interest.

APPENDIX G – NHS CONSTITUTION

The NHS Constitution sets out seven key principles that guide the NHS in all it does.

1. **The NHS provides a comprehensive service, available to all** - irrespective of gender, race, disability, age, sexual orientation, religion or belief. It has a duty to each and every individual that it serves and must respect their human rights. At the same time, it has a wider social duty to promote equality through the services it provides and to pay particular attention to groups or sections of society where improvements in health and life expectancy are not keeping pace with the rest of the population.
2. **Access to NHS services is based on clinical need, not an individual's ability to pay** - NHS services are free of charge, except in limited circumstances sanctioned by Parliament.
3. **the NHS aspires to the highest standards of excellence and professionalism** - in the provision of high-quality care that is safe, effective and focused on patient experience; in the planning and delivery of the clinical and other services it provides; in the people it employs and the education, training and development they receive; in the leadership and management of its organisations; and through its commitment to innovation and to the promotion and conduct of research to improve the current and future health and care of the population.
4. **NHS services must reflect the needs and preferences of patients, their families and their carers** - patients, with their families and carers, where appropriate, will be involved in and consulted on all decisions about their care and treatment.
5. **The NHS works across organisational boundaries and in partnership with other organisations in the interest of patients, local communities and the wider population** - the NHS is an integrated system of organisations and services bound together by the principles and values now reflected in the Constitution. The NHS is committed to working jointly with local authorities and a wide range of other private, public and third sector organisations at national and local level to provide and deliver improvements in health and well-being.
6. **The NHS is committed to providing best value for taxpayers' money and the most cost-effective, fair and sustainable use of finite resources** - public funds for healthcare will be devoted solely to the benefit of the people that the NHS serves.
7. **The NHS is accountable to the public, communities and patients that it serves** - the NHS is a national service funded through national taxation, and it is the Government which sets the framework for the NHS and which is accountable to Parliament for its operation. However, most decisions in the NHS, especially those about the treatment of individuals and the detailed organisation of services, are rightly taken by the local NHS and by patients with their clinicians. The system of responsibility and accountability for taking decisions in the NHS should be transparent and clear to the public, patients and staff. The Government will ensure that there is always a clear and up-to-date statement of NHS accountability for this purpose.
