Dear Mr Kingdom

**Re: Freedom of Information Request**

Please find below the response to your recent Freedom of Information request regarding planned expenditure on services for disabled children and their families within NHS Southport and Formby CCG.

Request/**Response**:

Could you please let me know whether the CCG plans to:

- a) Increase expenditure in real terms
- b) Maintain current levels of expenditure in real terms
- c) Maintain current levels of expenditure in cash terms
- d) Make cash reductions to current levels of expenditure

**NHS Southport and Formby CCG does not have specific costs centres or budget codes that relate to provision of services for disabled children.**

**There are no plans to reduce expenditure in any service that primarily supports meeting the health needs of disabled children.**

Could you also please let me know whether these plans have been finalised; or are currently still proposals (and if the latter, whether they are subject to public consultation)?

**Not applicable**

Finally, could you please send me copies of (or links to) to any Board or Committee papers with respect to plans for social care for disabled children and their families; and details of any public consultations on such plans.

**NHS Southport and Formby CCG has not presented any plans or papers that relate to social care for disabled children and their families.**
